Mare Owner Agreement for Fresh Semen Artificial Insemination at TCERC

This agreement is for mares brought to Town & Country Equine Reproduction Center to be bred by artificial insemination with fresh semen from stallions located at TCERC. Services included with this agreement include evaluation of the mare's reproductive system, ultrasound exams to follow follicular development, collection of stallion and evaluation/processing semen, artificial insemination, and an ultrasound exam for pregnancy at about 16 days post ovulation. The cost of this service is **\$300.00 per heat cycle**. This service fee does not include board. If she does not become pregnant on 1st cycle there will be and an additional service fee.

Again this service includes as many ultrasound exams as deemed necessary by the veterinarian to determine proper timing of insemination. We will also evaluate the semen prior to each insemination. We will then continue to ultrasound the mare to ensure ovulation and again at 16 days post ovulation to determine pregnancy status.

Potential Additional Costs:

Stallion Breeding Fee.....determined by the stallion owner

Board at TCERC \$16.00/mare/day; \$20.00/mare with foal/day

Drugs to control or synchronize the estrous cycle (variable use)

ReguMate for 16 days (\$0.35/ml range \$55 to \$80 depending on mare size)

EstruMate or Lutalyse \$12.00 (given after ReguMate or at certain stage of cycle)

HCG hormone to time ovulation \$25.00(usually given to each mare)

Unforeseen Costs...tranquilization, uterine therapy (cultures, biopsy, infusion of antibiotics, flushing or treating for fluid accumulation), Caslick suture, ect. Ask for a complete price list.

We recommend that you have your mare and/or foal insured, as TCERC is not liable for injury or illness to either your mare or foal while at TCERC.

Complete below and return one copy to TCERC. Please have a copy of a current negative EIA (Coggins) test when the mare is brought to TCERC. We can run the EIA test at TCERC if needed. **A \$400.00 deposit or credit card is required at the time of mare arrival.**
